Continued Care in Northern Haiti

In mid-March a medical team from Eastview Christian Church in Normal, Illinois provided medical services to Lory, Haut Dehaine, Fev, and Difou. The team

consisted of 15 people including 2 physicians and 10 nurses or other medical staff. We treated over 600 people over this short amount of time. The group had quite a few people with previous experiences in Haiti but this was the first time that many had been to the more rural locations of Fev and Difou. The entire team was touched by the people, experiences, and the need that these communities have.

Once again our Mission Team Coordinator, Willeme, took the team around each community to provide light medical care door to door as they visited with the people and prayed with them. The team

really appreciated the willingness of the people to invite us into their homes and

spend time with their families. We know the families appreciate the medical care they receive as access to medical care is extremely limited in Northern Haiti. We are blessed to have many men and women that are willing to dedicate their time to helping those in need.

Vehicle Update

We are happy to share that we have been able to purchase one of the vehicles the ministry needed. The purchase of this vehicle will allow us to have two vehicles for transporting teams, traveling throughout Northern Haiti for our Pastors, and moving supplies for teams and churches. As we continue to see the ministry growing in reach throughout Northern Haiti, it is very important to be able to have reliable transportation as the communities we currently partner with as well as future communities are not within walking distance of Pillatre. This gently used vehicle is a great answer to prayers and we hope it will be used to serve Northern Haiti for many years. Word is that the horn works great!
